MonoTracer® at the Auto Salon: "The ultimate low drag high performance vehicle"

Winterthur (ots) -

- Note: Photos are available for free download at:

<http://presseportal.ch/de/pm/100011956> -

The ideal combination of form and function

With minimal weight, skilful design and extremely low drag, this revolutionary new production vehicle offers superior drive performance coupled with greatly reduced space requirements and sensationally low CO2 exhaust emissions.

Performance 96 KW at 8750 rpm

Max. torque 117 Nm at 6000 rpm

Top speed > 250 km/h

Acceleration 0-100 km/h in 4.8 seconds

Consumption ISO 7118 3.62l/100 km

CO2 emissions 85 g/km

With the enlargement of its production facilities, a manufacturing capacity of 100 vehicles will be achieved next year.

The MonoTracer® can be viewed at the Geneva Automobile Salon from 6th to 16th March 2008 at stand 3220 in Hall 3. A test vehicle awaits your participation in a test run too.
