Special Items - Restructuring charge

PUMA has taken further actions to ensure long-term profitable growth in the future given the currently challenging economic environment and an unpredictable outlook. Management has implemented a cost reduction program which will reduce originally planned costs annually and lead to cost savings of up to EUR 150 million in FY2011.

With the resulting one-time expenses of EUR 110 million (net of taxes EUR 75.2 million) in the first quarter, PUMA will optimize its retail portfolio, the global organizational structure and the operating processes. The number of employees in PUMA's global workforce is expected to remain at previous year's level while ensuring an even better alignment of resources with key business opportunities. The program was initiated as a proactive step in order to ensure an even leaner and more efficient platform that will help PUMA to focus even stronger on the numerous opportunities that arise in the sportlifestyle market in a challenging market environment accordingly.

After adjustment for special items, EBIT amounted to EUR 4.0 million compared to EUR 125.8 million last year.

Earnings Before restructuring costs, the company's pre tax profit (EBT) accounts for EUR 112.4 million versus EUR 126.8 million and net earnings to EUR 80.8 million versus EUR 90.1 million, a decline of 10.3%. This results in earnings per share of EUR 5.36 compared to EUR 5.76. The operational tax ratio came in at 28.5% versus 28.9% last year.

Taking into account the restructuring costs, earnings before taxes declined from last year's EUR 126.8 million to EUR 2.4 million this year. Net earnings amounted to EUR 5.6 million versus EUR 90.1 and earnings per share as well as diluted earnings per share were at EUR 0.37 versus EUR 5.76 in last year's quarter.

Regional Development

Sales in the EMEA-region decreased currency adjusted by 3.0% reaching EUR 366.1 million versus EUR 391.1 million last year. Sales in last year's quarter were impacted positively by major sport events. The region now represents 52.5% of consolidated sales. Gross profit margin increased to 55.1% compared to 54.7% last year.

Sales in the Americas were up currency neutral by 11.5% to EUR 178.1 million. The region now accounts for 25.5% of consolidated sales. Gross profit margin stood at 46.7% compared to 50.4% last year. In the US market, sales increased by 3.4% to \$ 138.7 million in the first quarter.

Asia/Pacific sales decreased by 1.2% currency neutral but increased by 14.8% in Euro terms to EUR 153.3 million. The total region accounts for 22.0% of sales. Gross profit margin reached 51.0% versus 53.0% last year.

Net Assets and Financial Position

Equity

As of March 31, 2009, total assets climbed by 16.4% to EUR 2,108.0 million and the equity ratio reached 56.6% after 60.4% in the previous year.

Working capital

Inventories grew 22.6% to EUR 446.7 million and accounts receivable 5.3% reaching EUR 533.1 million. Adjusted by acquisitions and currencies, inventories were up 16.6% and accounts receivables by 1.3%. Due to lower liabilities at the end of March, working capital totaled EUR 596.9 million (ex acquisition EUR 581.2 million) compared to EUR 521.1 million last year.

Capex/Cashflow

For Capex, the company spent EUR 11.6 million in the first quarter versus EUR 24.3 million in last year's quarter. In addition, an outflow of EUR 54.7 million (last year: EUR 16.6 million) related to acquisition cost.

Due to the aforementioned investments and the higher working capital, free cashflow amounted to EUR -118.0 million compared to EUR -49.7 million last year. Excluding investment for acquisitions, free cashflow was EUR -63.3 million versus EUR -33.0 million. The decline compared to last year is mainly due to the aforementioned lower liabilities.

Cash position

Total cash end of March stood at EUR 267.6 versus EUR 357.2 million last year. Bank debts were down from EUR 67.1 million to EUR 63.2 million. As a result, the net cash position decreased from EUR 290.0 million to EUR 204.5 million year over year, mainly due to the aforementioned acquisitions and a lower free cashflow in the first quarter.

Share Buyback

PUMA did not purchase own shares during the first three months. At quarter-end, 950,000 shares were held as treasury stock in the balance sheet, accounting for 5.9% of total share capital. Effective April 29, 2009 all own shares were cancelled and share capital was reduced accordingly. As of today, subscribed capital consists of 15,082,464 shares or EUR 38.6 million.

Outlook 2009 - Market environment remains challenging

During the first quarter, sales came in better than the order books at the end of the fourth quarter 2008 had indicated. Due to seasonability, the current shift in future orders to at-once business in the current market environment, as well as the own retail business which is not included in the order books, quarterly orders are losing significance as an indicator of future sales. As a result, PUMA will not release future orders as of the first quarter 2009.

After 14 years of consecutive growth, the year 2009 will be taken as a year of consolidation with a clear focus on adjusting the cost basis in alignment to the current business environment. First positive signs are not expected before 2010, the year that is highlighted by the upcoming Football World Cup in South Africa, where PUMA will once again be one of the most dominant brands. It currently outfits eleven African Football Federations including Egypt, the African Cup of Nations winner 2008, as well as the reigning World Champion, Italy.

Furthermore, additional focus for 2009 is on working capital improvements to strengthen the cash position and therefore the return on capital employed by year-end.

With all the implemented measures, PUMA plans to protect its industry-leading key financial parameters.

Jochen Zeitz, CEO: "Despite an ongoing slowdown in the global consumer's environment, PUMA managed to post a solid sales and

earnings performance before one time expenses in the first quarter. Due to the worldwide recession, we plan for business to remain challenging in 2009 and have therefore decided to implement further measures to align our cost structure with the current market environment, ensuring a platform for profitable growth in the future. The measures are expected to accelerate our operational processes, make the organization even more efficient and to further reduce time-to-market for our products. In addition to the opportunities that arise in the different sportlifestyle segments, PUMA will be particularly focused on the Football segment, in which we plan to further grow our market share with the first World Cup ever played on African soil, tapping into the significant growth opportunities offered by the market."
