EANS-Adhoc: Von Roll Holding AG presents figures for the first quarter of 2012

ad-hoc disclosure transmitted by euro adhoc with the aim of a Europe-wide distribution. The issuer is solely responsible for the content of this announcement.

3-month report

25.04.2012

Au / Wädenswil, April 25, 2012 - Von Roll Holding AG announced its first-quarter results today. The development of the company's business during the first three months of 2012 was significantly influenced by the continuing uncertain economic situation and by foreign currency translation effects. Order intake rose slightly by 0.6% to reach CHF 160 million. At constant exchange rates, this equals an increase of 5.7%. At current exchange rates, the industrial group's turnover was 2.1% lower than in the previous year, amounting to CHF 140 million. However, turnover increased by 2.1% when adjusted for currency translation effects.

Since January 1, 2012, Von Roll's business segments are no longer based on business applications in customer-defined sales markets. Instead, the segments now cover all activities related to Von Roll's production processes. The newly formed segment Von Roll Technologies covers applications in the transformers, water and solar segments. Figures from the previous year have been adjusted accordingly.

About Von Roll Holding AG:

As one of Switzerland's longest established industrial companies, Von Roll Holding AG focuses on products and systems for power generation, transmission and distribution. Von Roll is the global market leader in insulation products, systems and services and is represented in 19 countries with around 3,000 employees at over 30 sites.
