Digitel will distribute Albis Technologies Telecom products in Latin America

Alegre (ots) -

Albis Technologies Ltd. (Switzerland) (www.albistechnologies.com) and Digitel SA Indústria Eletrônica (Brazil) (www.digitel.com.br) announced today, that Digitel will act as distributor of Albis Technologies telecommunication products within Latin America.

About Albis ULAF+ product line:

Network operators place their confidence in ULAF+ for Business Access and Backhaul solutions. The modular concept ensures high flexibility, scalability and migration capability. ACCEED products - part of the broad portfolio of ULAF+ - are specially designed for EFM applications in a carrier grade Ethernet network. Through the deployment of ULAF+ in the network operators expand their service offering and boost their return on investment.

That's why ULAF+ has become the preferred access solution for so many network operators.

About Albis Technologies:

From Business Access, to Broadband, to Digital Set-top Boxes for IPTV, customers count on Albis Technologies to get comprehensive and tailored solutions. Carriers and network operators benefit from Albis expert knowledge, quality, reliability, and appreciate long term partnerships.

For many years, demanding clients from the telecommunication, industry, logistic, security, power supply, and medical sectors have put their trust in the expertise of our 160 highly qualified employees.
