LifeWatch completes major new national agreement with UnitedHealthcare and all of their affiliates

Neuhausen am Rheinfall / Switzerland – LifeWatch AG (SIX Swiss Exchange: LIFE), the leading wireless cardiac monitoring service provider in the U.S., announced today the validation of its long-term relationship with UnitedHealthCare as evidenced by the completion of a new, follow-on major national agreement as an In-Network Preferred Provider with UnitedHealthcare and its affiliates, effective May 1, 2012. LifeWatch is one of only two UnitedHealthcare National Preferred vendors for Cardiac Monitoring Services and one of UnitedHealthcare’s National Providers for Home Sleep Testing.

UnitedHealthcare (UHC) provides coverage to approximately 70 million Americans, of which 9 million are Medicare Advantage members and 3 million are Medicaid replacement members. The UHC nationwide network includes 595,000 physicians and other health care professionals. The new agreement with LifeWatch covers all standard cardiac event monitoring and home sleep testing services. LifeWatch is also the sole In-Network provider for UHC’s Medicare members for ambulatory cardiac telemetry (ACT).

“We are extremely pleased that UnitedHealthcare, the premier national payor, has validated LifeWatch as a preferred National provider for all of our service offerings,” stated Dr. Yacov Geva, Chairman and CEO of LifeWatch AG. “The selection of LifeWatch as a long-term ancillary provider for United and their members is yet another indication of how our technology and service offerings are perceived in the competitive U.S. marketplace.”
