The next chapter of a success story

Become a real estate investor from your sofa and cash in over 5% return p.a. - CROWDLITOKEN launches the very first real estate investor platform in Europe

CROWDLITOKEN AG once again lives up to its reputation as a pioneer and launches an online real estate platform for its investors - a world premiere. The platform forms the core of the investment product and enables investors to put together their own real estate portfolio in a playful way.

Following announcements by the Liechtenstein Fintech company CROWDLITOKEN AG, their real estate platform went online. CROWDLITOKEN's investors can now place their purchased CROWDLITOKEN bonds (CRT) on selected properties in seconds, access important property documents, buy new bonds (CRTs) and view monthly profit reports. The platform can also be used via smartphone and allows investors to carry their properties with them at all times. "A great day. Finally, with this platform we are fulfilling our promise to our investors," says Domenic Kurt, CEO CROWDLITOKEN AG. "At this point we would like to thank the investors for their trust and patience from the very beginning."

With the launch of the new portal, the company is laying another cornerstone for the next generation of financial products. The new investment world is in direct competition with the existing fund world and provides access to real estate for everyone starting at CHF 100. CROWDLITOKEN thus also offers small investors from Europe the option to benefit from strong returns of up to 7% p.a. CROWDLITOKEN pays out the generated returns monthly directly to its investors.

About CROWDLITOKEN AG

CROWDLITOKEN AG is a Liechtenstein Fintech company that provides investors with access to a European real estate portfolio starting at 100 CHF/EUR/ETH. It is based on real estate-linked security tokens - called "CRTs" - which correspond to a digital representation of a bond and yield between 5-7%. The bond combines the advantages of direct and indirect real estate investments and the distribution is possible by the FMA and FINMA in the EEA area and Switzerland.
