NOT FOR DISTRIBUTION TO ANY U.S. PERSON. PLEASE SEE THE IMPORTANT NOTICE AT THE END OF THIS PRESS RELEASE.

QIAGEN N.V. (NASDAQ: QGEN; Frankfurt Prime Standard: QIA) gibt bestimmte Konditionen der neuen nicht-nachrangigen, unbesicherten Wandelschuldverschreibungen mit Barausgleich (die "Schuldverschreibungen") bekannt.

Das Emissionsvolumen der Schuldverschreibungen wurde auf einen Gesamtnennbetrag von \$400 Millionen erhöht. Die Schuldverschreibungen werden mit 0,50% p.a. verzinst und die Zinsen jeweils halbjährlich nachträglich zahlbar sein. Der anfängliche Wandlungspreis wird voraussichtlich mit einer Wandlungsprämie von 30% über dem Referenzaktienkurs am Tag der Preisfestsetzung festgesetzt. Der Referenzaktienkurs entspricht dem volumengewichteten durchschnittlichen Kurs der QIAGEN-Aktie zwischen Handelsbeginn und Handelsschluss an dem NASDAQ Global Select Market am 6. September 2017.

Die endgültigen Konditionen der Schuldverschreibungen und das endgültige Emissionsvolumen wird bei der endgültigen Preisfestsetzung bestimmt, die voraussichtlich nach Handelsschluss an dem NASDAQ Global Select Market am 6. September 2017 durchgeführt wird.

Nach den Bedingungen für die Platzierung der Schuldverschreibungen, wird QIAGEN vereinbaren, für einen Zeitraum, der 90 Tage nach dem Valutatag endet (lock-up period), keine Wertpapiere, die im Wesentlichen mit den Schuldverschreibungen oder QIAGEN-Aktien vergleichbar sind, zu verkaufen, vorbehaltlich üblicher Ausnahmen.

For readers in the European Economic Area: In any EEA Member State that has implemented the Prospectus Directive, this communication is only addressed to and directed at qualified investors in that Member State within the meaning of the Prospectus Directive. The term "Prospectus Directive" means Directive 2003/71/EC (and amendments thereto, including Directive 2010/73/EU, to the extent implemented in each relevant Member State), together with any relevant implementing measure in the relevant Member State.

For readers in the United Kingdom: This communication is being directed only at (i) persons who are outside the United Kingdom or (ii) investment professionals falling within Article 19(5) ("Investment professionals") of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order") or (iii) certain high value persons and entities who fall within Article 49(2)(a) to (d) ("High net worth companies, unincorporated associations etc.") of the Order; or (iv) any other person to whom it may lawfully be communicated (all such persons in (i) to (iv) together being referred to as "relevant persons"). The Notes are only available to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire such Notes will be engaged in only with, relevant persons. Any person who is not a relevant person should not act or rely on this document or any of its contents.

The Joint Bookrunners, each of which are authorized by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority, are acting exclusively for QIAGEN and no-one else in connection with the offer and sale of the Notes (the "Offering"). They will not regard any other person as their respective clients in relation to the Offering and will not be responsible to anyone other than QIAGEN for providing the protections afforded to their respective clients, nor for providing advice in relation to the Offering, the contents of this announcement or any transaction, arrangement or other matter referred to herein.

In connection with the Offering, the Joint Bookrunners and any of their affiliates, may take up a portion of the Notes in the Offering as a principal position and in that capacity may retain, purchase, sell, offer to sell for their own accounts such Notes and other securities of the Company or related investments in connection with the Offering or otherwise. Accordingly, references herein to the Notes being issued, offered, subscribed, acquired, placed or otherwise dealt in should be read as including any issue or offer to, or subscription, acquisition, placing or dealing by, the Joint Bookrunners and any of their affiliates acting in such capacity. In addition, the Joint Bookrunners and any of their affiliates may enter into financing arrangements (including swaps or contracts for differences) with investors in connection with which the Joint Bookrunners and any of their affiliates may from time to time acquire, hold or dispose of Notes. The Joint Bookrunners do not intend to disclose the extent of any such investment or transactions otherwise than in accordance with any legal or regulatory obligations to do so.

None of the Joint Bookrunners or any of their respective directors, officers, employees, advisers or agents accepts any responsibility or liability whatsoever for or makes any representation or warranty, express or implied, as to the truth, accuracy or completeness of the information in this press release (or whether any information has been omitted from the press release) or any other information relating to QIAGEN, its subsidiaries or associated companies, whether written, oral or in a visual or electronic form, and howsoever transmitted or made available or for any loss howsoever arising from any use of this press release or its contents or otherwise arising in connection therewith.

In connection with the Notes Offering, QIAGEN intends to enter into privately negotiated convertible note hedge transactions with one or more Joint Bookrunners for the Notes offering or other financial institutions (the "dealers") or their affiliates, initially covering the same number of QIAGEN's common shares as underlie the Notes. The convertible note hedge transactions will be cash settled upon exercise and are expected to offset any cash payments QIAGEN is required to make in excess of the principal amount of the Notes upon conversion. QIAGEN also intends to enter into separate privately negotiated warrant transactions with such dealers or their affiliates, initially covering the same number of QIAGEN's common shares as underlie the Notes. The warrant transactions could separately have a dilutive effect with respect to QIAGEN's common shares to the extent that the market price per share of QIAGEN's common shares upon expiration of the warrants exceeds the strike price of the warrants, which is expected to be set around 160% of the Reference Share Price.

In connection with these Convertible Note Hedge and Warrant Transactions, such dealers or their affiliates expect to enter into various derivatives transactions and engage in other activities that could have the effect of increasing or preventing a decline in the price of QIAGEN's common stock in connection with the pricing of the Notes offering. These activities may be discontinued at any time. In addition, from time to time and in connection with any conversion of the Notes, the dealers or their respective affiliates may enter into or unwind derivative transactions and engage in other activities that could adversely impact the price of QIAGEN's common stock and of the Notes.
