

Global Corporate Capital Flows, 2008/09 to 2013/14

Study of the investment intentions of companies in Switzerland and
in 14 further countries around the world

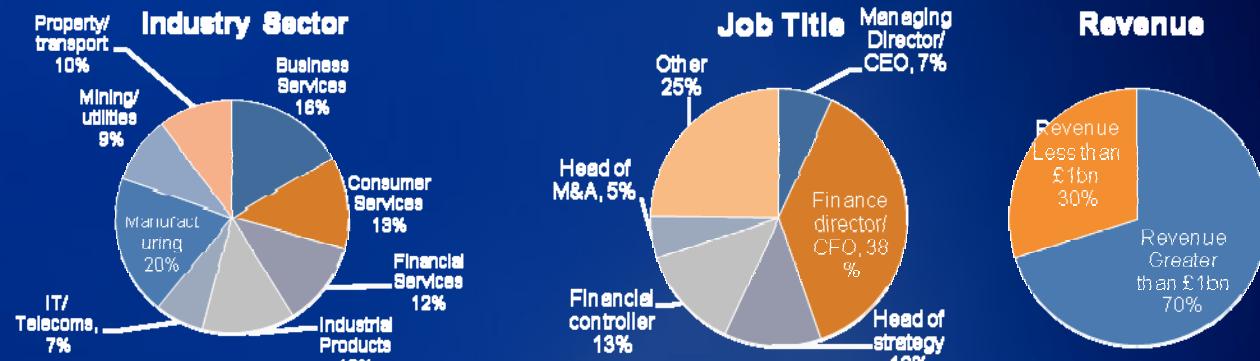

June 2008

Methodology of the survey

- A poll among 311 corporate investment strategists, plus representatives of private equity funds and sovereign wealth funds.
- The participants have been asked on where and how they expect to be investing the funds under their control in the next 12 months (2008/09), and in the next five years (2008/2009 to 2013/14).
- In total 15 key countries have been covered around the world, e.g. Australia, Brazil, Canada, China, Germany, India, Ireland, Mexico, Netherlands, Russia, South Africa, Spain, Switzerland, UK and the US.
- With a focus on Switzerland 20 companies have been interviewed.

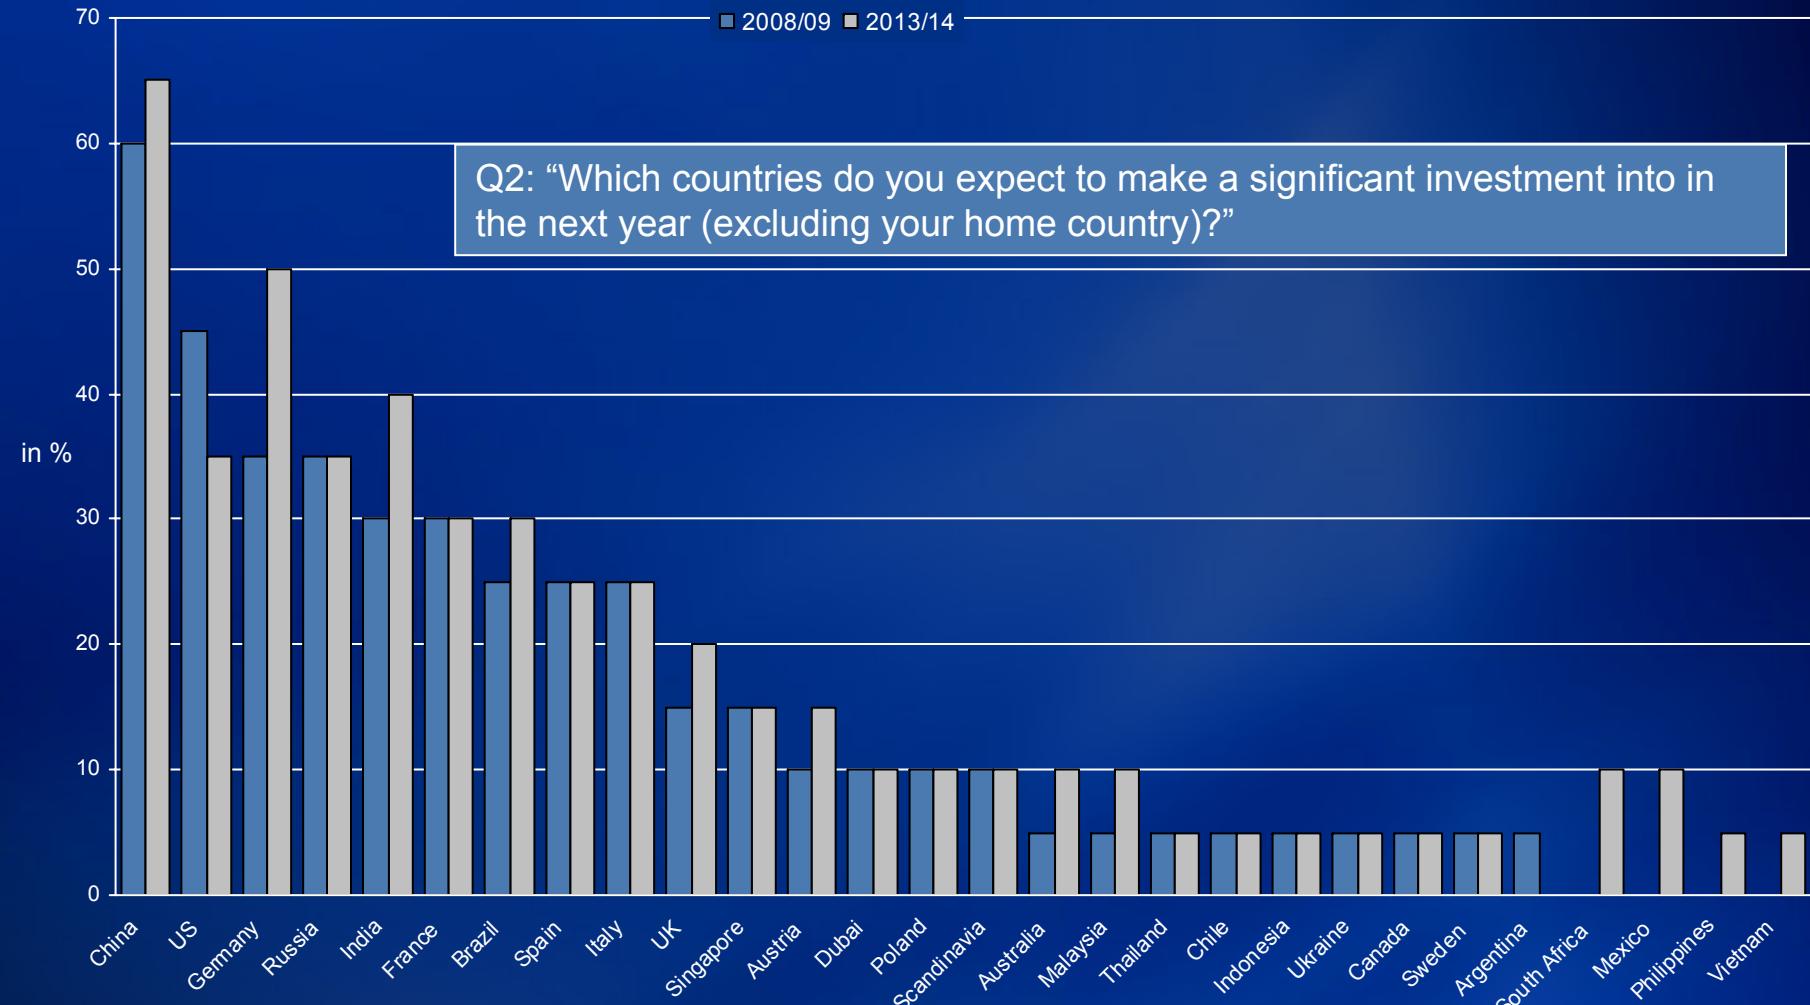

Researchers commissioned by KPMG International interviewed 311 key decision makers from a wide range of industries
